Proceedings (Animal Sciences)

Volume 96, 1987

SUBJECT INDEX

Abutilon indicum
Influence of biochemical parameters of different hosts on the biology of *Earias vittella* (Fab.) (Noctuidae: Lepidoptera) 329
Acanthamoeba astronyxis
Aspects of culture: *Acanthamoeba astronyxis* (Ray and Hayes 1954) from Bay of Bengal Coasts, India 63
Acanthaspidinae
Biological, behavioural and morphological tools in the biosystematics of Reduviidae (Insecta-Heteroptera-Reduviidae) 499
Achaea janata
Life and fertility tables of *Achaea janata* Linnaeus on castor 383
Acridids
Host preferences of some acridids (Insecta: Orthoptera) in relation to some biochemical parameters 15
Adult behaviour
Biology of *Nyphasia apicalis* Gahan (Coleoptera: Cerambycidae) with particular emphasis on emergence and imaginal life 403
Adult emergence
Biology of *Nyphasia apicalis* Gahan (Coleoptera: Cerambycidae) with partieular emphasis on emergence and imaginal life 403
Adult nutrition
Nutritional modulation of reproduction in two phytophagous insect pests 153
Aerobic metabolism
A shift in metabolic pathway of *Sarotherodon mossambicus* (Peters) exposed to thiodon (endosulfan) 55
Agromyzidae
Biosystematic studies on Agromyzidae from India 573
Aiolopus thalassinus
Nutritional influence on the growth and reproduction in two species of acridids (Orthoptera: Insecta) 229
Aleyrodidae
Biosystematics of Aleyrodidae (Homoptera: Insecta) 583
Alga
Observations on feeding propensities, growth rate and fecundity in mayflies (Insecta: Ephemeroptera) 305
Alkylating agents
Impact of chemicals on feeding and reproduction in insects 311
Allometric growth
Impact of predation and food utilization on reproduction of *Diplonychus indicus* and *Ranatra filiformis* 293
Amitermes
Wing microsculpturing in two Arabian species of termite genus *Amitermes* (Termitidae, Amitermitinae) 715
Ammonia quotient
Energy utilization in freshwater mullet, *Rhinomugil corsula* (Hamilton) under exercise 705
Anaerobic metabolism
A shift in metabolic pathway of *Sarotherodon mossambicus* (Peters) exposed to thiodon (endosulfan) 55
Anaesthetisation
Terminal velocity of the first instar *Ectropis excursaria* (Guenee) (Lepidoptera: Geometridae) 673
Ant-attendance
Newer trends in the biosystematics of Membracidae 517
Antibiosis
Effect of okra fruit blocks, seeds and pericarp on post-embryonic development of *Earias vittella* (Fab.) in relation to some phytochemicals of selected okra genotypes 361
Antifeedants
Impact of chemicals on feeding and reproduction in insects 311
Aphid
Importance of Karyology in aphid taxonomy 461
Aphis gossypii
Correlation of nutritional changes with the reproductive potential of *Aphis gossypii* Glover on egg plant 239
Aphytis
Biosystematic studies on *Aphytis* in India-A promising area of research 479
Arachidonic acid
Nutrient modulation of hormone production: Dietary essential fatty acids, tissue prostaglandins and their probable role in insect reproduction 181
Armyworm
Development and survival of *Mythimna separata* (Wlk.) on some host plants during winter at Hisar 71
Arrhenotoky
Recent advances in biosystematics of *Tricho-*

gramma and *Trichogrammatoidea* (Hymenoptera, Trichogrammatidae) 469

Ascaridia galli
Qualitative and quantitative changes in lipids along the length of female reproductive system of the poultry nematode *Ascaridia galli* (Schrank 1788) 683

Autogeny
Nutrition and reproduction in haematophagous arthropods 253

Azadirachtin
Influence of azadirachtin on insect nutrition and reproduction 341

Bait
Evaluation of brodifacoum against house murids of Garhwal Himalaya (India) 679

Behavioural Piratinae
Biological, behavioural and morphological tools in the biosystematics of Reduviidae (Insecta-Heteroptera-Reduviidae) 499

Behaviour
Some aspects of biosystematics of Bruchidae (Coleoptera) 509

Biochemical analysis
Host preferences in some pentatomids and related impact on the fecundity of their parasitoids 281

Biochemical correlates
Biochemical correlates in *Rhipiphorothrips cruentatus—Terminalia catappa* interactions with special reference to leaf infestation patterns 117

Biochemical parameters
Host preferences of some acridids (Insecta: Orthoptera) in relation to some biochemical parameters 15
Influence of biochemical parameters of different hosts on the biology of *Earias vittella* (Fab.) (Noctuidae: Lepidoptera) 329

Biological
Biological, behavioural and morphological tools in the biosystematics of Reduviidae (Insecta-Heteroptera-Reduviidae) 499

Biosystematics
Feeding and behavioural parameters and egg ultrastructure in the biosystematics of Reduviidae (Insecta-Heteroptera) 485
Biological, behavioural and morphological tools in the biosystematics of Reduviidae (Insecta-Heteroptera-Reduviidae) 499
Biosystematics of fig wasps (Chalcidoidea: Hymenoptera) 533
Biosystematics of Chalcididae (Chalcidoidea: Hymenoptera) 543
Biosystematics of Aleyrodidae (Homoptera: Insecta) 583
Biosystematics of Tingidae on the basis of the biology and micromorphology of their eggs 587
Biosystematics in lepidoptera and its importance in forest entomological research 613
Biosystematics of *Culex vishnui* and *Culex pseudovishnui* based on ecobehavioural pattern 629
Biosystematic studies of south Indian Leptophlebiidae and Heptageniidae in relation to egg ultrastructure and phylogenetic interpretations 637

Biotype
Importance of Karyology in aphid taxonomy 461

Bivalve molluscs
Quantitative analysis of carbohydrases in the crystalline style of some intertidal bivalve molluscs 41

Bloodmeal identification
Feeding and reproduction in vector mosquitoes 275

Blood meal
Nutrition and reproduction in haematophagous arthropods 253

Body weight
Population structure and breeding season in *Rattus rattus wroughtoni* Hinton 657

Bombyx mori
Glycogen level and glycogen phosphorylase activity in the eggs of silkworm *Bombyx mori* L. 49
Effects of feeding regime on energy allocation to reproduction in the silkworm *Bombyx mori* 333

BPH
Biosystematics of rice brown planthopper and rice green leafhoppers 551

Breeding season
Population structure and breeding season in *Rattus rattus wroughtoni* Hinton 657

Brinjal leaves
Correlation of nutritional changes with the reproductive potential of *Aphis gossypii* Glover on egg plant 239

Brodifacoum
Evaluation of brodifacoum against house murids of Garhwal Himalaya (India) 679

Cadmium
Cadmium induced vertebral deformities in an estuarine fish, *Ambassis commersoni* Cuvier 389

Calcium
Cadmium induced vertebral deformities in an estuarine fish, *Ambassis commersoni* Cuvier 389

Callosobruchus maculatus
Effect of temperature and host seed species on the fecundity of *Callosobruchus maculatus* (F.) 221

Carbohydrases
Quantitative analysis of carbohydrases in the crystalline style of some intertidal bivalve molluscs 41
Caudal curvature
Cadmium induced vertebral deformities in an estuarine fish, *Ambassis commersoni* Cuvier 389
Cerambycidae
Biology of *Nyphasia apicalis* Gahan (Coleoptera: Cerambycidae) with particular emphasis on emergence and imaginal life 403
Cerebral ganglia
In vitro studies on the involvement of brain and gonad in the functional differentiation of prostate gland in *Cryptozona belangeri* (Deshayes) (Mollusca: Gastropoda) 369
Chalcididae
Biosystematics of Chalcididae (Chalcidoidea: Hymenoptera) 543
Chalcidoidea
Biosystematics of fig wasps (Chalcidoidea: Hymenoptera) 533
Channa striatus fry
Food utilization and surfacing activity of *Channa striatus* fry in relation to quality of food 77
Chiridothrips indicus
Ecobehavioural and biological studies on two species of seed infesting thrips (Thysanoptera: Insecta) 23
Chirothrips mexicanus
Ecobehavioural and biological studies on two species of seed infesting thrips (Thysanoptera: Insecta) 23
Chromosomal races
Chromosomal basis of raciation in *Drosophila*: A study with *Drosophila nasuta* and *Drosophila albomicana* 451
Chromosomes
Some aspects of biosystematics of Bruchidae (Coleoptera) 509
Collembola
Recent trends in the biosystematics of Entognathous Apterygota with special reference to Collembola 619
Consumption index
Nutritional influence on the growth and reproduction in two species of acridids (Orthoptera: Insecta) 229
Conversion
Effect of starvation on food utilization in the freshwater snail *Pila globosa* (Swainson) 135
Cotton
Influence of biochemical parameters of different hosts on the biology of *Earias vittella* (Fab.) (Noctuidae: Lepidoptera) 329
Crassostrea
Quantitative analysis of carbohydrases in the crystalline style of some intertidal bivalve molluscs 41
Crucifers
Effect of cruciferous glucosinolates on probing pattern and feed uptake by mustard aphid, *Lipaphis erysimi* (Kaltenbach) 695
Cryptozona belangeri
In vitro studies on the involvement of brain and gonad in the functional differentiation of prostate gland in *Cryptozona belangeri* (Deshayes) (Mollusca: Gastropoda) 369
Crystalline style
Quantitative analysis of carbohydrases in the crystalline style of some intertidal bivalve molluscs 41
Feeding and extracellular digestive rhythms in some intertidal bivalve molluscs 667
Culex pseudovishnui
Biosystematics of *Culex vishnui* and *Culex pseudovishnui* based on ecobehavioural pattern 629
Culex vishnui
Biosystematics of *Culex vishnui* and *Culex pseudovishnui* based on ecobehavioural pattern 629
Cytochemistry
Micromorphology and cytochemistry of the branchial glands of the freshwater mullets *Rhinomugil corsula* (Ham.) and *Sicamugil cascasia* (Ham.) 417
Cytogenetics
Biosystematics of gall aphids (Aphididae, Homoptera) of western Himalaya, India 561

Damage potential
Ecobehavioural and biological studies on two species of seed infesting thrips (Thysanoptera: Insecta) 23
Desiccation
Stress induced alterations in the hemocyte population of *Periplaneta americana* (L.) 689
Detritus
Observations on feeding propensities, growth rate and fecundity in mayflies (Insecta: Ephemeroptera) 305
Diaspine scale insects
Biosystematic studies on *Aphytis* in India-A promising area of research 479
Digestion
Assessment of neuroendocrine mechanisms of feeding and reproduction in phytophagous insects 185
Differential feeding
Impact of differential feeding on the reproduction of tiger beetle *Cicindela cancellata* DeJean (Cicindelidae: Coleoptera) 317
Diplura
Recent trends in the biosystematics of Ento-

gnathous Apterygota with special reference to Collembola 619
Distribution
Biosystematic studies on Agromyzidae from India 573
Diversity
Distribution and population dynamics of soil nematodes in a tropical forest ecosystem from Sambalpur, India 395
Donax
Quantitative analysis of carbohydrases in the crystalline style of some intertidal bivalve molluscs 41
Feeding and extracellular digestive rhythms in some intertidal bivalve molluscs 667
Drosophila
Multifaceted approach to evaluate the relationship among closely related forms of *Drosophila* 439
Chromosomal basis of raciation in *Drosophila*: A study with *Drosophila nasuta* and *Drosophila albomicana* 451
Dusky cotton bug
Nutritional value of malvaceous seeds and related life-table analysis in terms of feeding and reproductive indices in the dusky cotton bug, *Oxycarenus laetus* Kirby (Hemiptera: Lygaeidae) 195

Earias
Effect of okra fruit blocks, seeds and pericarp on post-embryonic development of *Earias vittella* (Fab.) in relation to some phytochemicals of selected okra genotypes 361
Earias vittella
Nutritional modulation of reproduction in two phytophagous insect pests 153
Influence of biochemical parameters of different hosts on the biology of *Earias vittella* (Fab.) (Noctuidae: Lepidoptera) 329
Ecobehavioural pattern
Biosystematics of *Culex vishnui* and *Culex pseudovishnui* based on ecobehavioural pattern 629
Economic impact
Biosystematic studies on Agromyzidae from India 573
Ectropis excursaria
Terminal velocity of the first instar *Ectropis excursaria* (Guenee) (Lepidoptera: Geometridae) 673
Efficiency
Effect of temperature and host seed species on the fecundity of *Callosobruchus maculatus* (F.) 221
Egg production efficiency
Relation between feeding and egg production in some insects 171
Egg production
Effect of temperature and host seed species on the fecundity of *Callosobruchus maculatus* (F.) 221
Effects of feeding regime on energy allocation to reproduction in the silkworm *Bombyx mori* 333
Egg ultrastructure
Feeding and behavioural parameters and egg ultrastructure in the biosystematics of Reduviidae (Insecta-Heteroptera) 485
Biosystematic studies of south Indian Leptophlebiidae and Heptageniidae in relation to egg ultrastructure and phylogenetic interpretations 637
Electrophoretic analysis
Significance of haemolymph protein patterns in biosystematic studies of some grouse locusts (Tetrigidae: Orthoptera) 527
Elimination
Cadmium induced vertebral deformities in an estuarine fish, *Ambassis commersoni* Cuvier 389
Emergence stimulus
Biology of *Nyphasia apicalis* Gahan (Coleoptera: Cerambycidae) with particular emphasis on emergence and imaginal life 403
Energetics
Impact of predation and food utilization on reproduction of *Diplonychus indicus* and *Ranatra filiformis* 293
Energy allocation
Effects of feeding regime on energy allocation to reproduction in the silkworm *Bombyx mori* 333
Energy utilization
Energy utilization in freshwater mullet, *Rhinomugil corsula* (Hamilton) under exercise 705
Enzyme
Recent advances in biosystematics of *Trichogramma* and *Trichogrammatoidea* (Hymenoptera, Trichogrammatidae) 469
Epidermal habitat
Host dependency among haematophagous insects: A case study on flea-host association 349
Eutrophication
Limnology of river Cooum with special reference to sewage and heavy metal pollution 141
Evolutionary trend
Biosystematics of Tingidae on the basis of the biology and micromorphology of their eggs 587
Evolution
Chromosomal basis of raciation in *Drosophila*: A study with *Drosophila nasuta* and *Drosophila albomicana* 451

Extracellular digestive rhythm
Feeding and extracellular digestive rhythms in some intertidal bivalve molluscs 667

Fecundity
Relation between feeding and egg production in some insects 171
Influence of leaf age on feeding and reproduction in *Raphidopalpa atripennis* F. (Coleoptera: Chrysomelidae) 207
Effect of food quality on fecundity of *Mylabris pustulata* (Coleoptera: Meloidae) 217
Effect of temperature and host seed species on the fecundity of *Callosobruchus maculatus* (F.) 221
Nutritional influence on the growth and reproduction in two species of acridids (Orthoptera: Insecta) 229
Influence of nutrition on the reproductive biology of sugarcane pests and their natural enemies 245
Feeding and reproduction in vector mosquitoes 275
Observations on feeding propensities, growth rate and fecundity in mayflies (Insecta: Ephemeroptera) 305
Impact of differential feeding on the reproduction of tiger beetle *Cicindela cancellata* DeJean (Cicindelidae: Coleoptera) 317
Fecundity index
Host preferences in some pentatomids and related impact on the fecundity of their parasitoids 281
Feeding
Effect of starvation on food utilization in the freshwater snail *Pila globosa* (Swainson) 135
Assessment of neuroendocrine mechanisms of feeding and reproduction in phytophagous insects 185
Effect of temperature and host seed species on the fecundity of *Callosobruchus maculatus* (F.) 221
Feeding and reproductive behaviours
Feeding and behavioural parameters and egg ultrastructure in the biosystematics of Reduviidae (Insecta-Heteroptera) 485
Feeding and reproductive indices
Nutritional value of malvaceous seeds and related life-table analysis in terms of feeding and reproductive indices in the dusky cotton bug, *Oxycarenus laetus* Kirby (Hemiptera: Lygaeidae) 195
Feeding behaviour
Impact of chemicals on feeding and reproduction in insects 311
Feeding duration
Effects of feeding regime on energy allocation to reproduction in the silkworm *Bombyx mori* 333
Feeding pattern
Relation between feeding and egg production in some insects 171
Feeding propensities
Observations on feeding propensities, growth rate and fecundity in mayflies (Insecta: Ephemeroptera) 305
Feed uptake
Effect of cruciferous glucosinolates on probing pattern and feed uptake by mustard aphid, *Lipaphis erysimi* (Kaltenbach) 695
Fig wasps
Biosystematics of fig wasps (Chalcidoidea: Hymenoptera) 533
Fiji
On some plant galls from the Fiji Islands 81
First instars
Terminal velocity of the first instar *Ectropis excursaria* (Guenee) (Lepidoptera: Geometridae) 673
Fitness
Multifaceted approach to evaluate the relationship among closely related forms of *Drosophila* 439
Flank gland
Light and electron microscopic observations on lipid droplets of the sebaceous flank gland of the shrew, *Suncus murinus viridescens* (Blyth) 33
Flea-host associations
Host dependency among haematophagous insects: A case study on flea-host association 349
Food quality
Effect of food quality on fecundity of *Mylabris pustulata* (Coleoptera: Meloidae) 217
Food utilization
Food utilization and surfacing activity of *Channa striatus* fry in relation to quality of food 77
Influence of leaf age on feeding and reproduction in *Raphidopalpa atripennis* F. (Coleoptera: Chrysomelidae) 207
Forest ecosystem
Distribution and population dynamics of soil nematodes in a tropical forest ecosystem from Sambalpur, India 395
Forest entomology
Biosystematics in lepidoptera and its importance in forest entomological research 613
Foreword 151
Foreword 437
Formalin toxicity
Haematological effects of sublethal concentration of formalin on *Sarotherodon mossambicus* (Peters) 721
Freshwater prawns
Experimental studies on the hatching rhythm

and larval release in Palaemonid and Atyid prawns 647
Functional differentiation
In vitro studies on the involvement of brain and gonad in the functional differentiation of prostate gland in *Cryptozona belangeri* (Deshayes) (Mollusca: Gastropoda) 369

Gall aphids
Biosystematics of gall aphids (Aphididae, Homoptera) of western Himalaya, India 561
Gall formation
Biosystematics of gall aphids (Aphididae, Homoptera) of western Himalaya, India 561
Gall morphology
Biosystematics of gall aphids (Aphididae, Homoptera) of western Himalaya, India 561
Generic composition
Biosystematic studies on Agromyzidae from India 573
Genotype
Effect of okra fruit blocks, seeds and pericarp on post-embryonic development of *Earias vittella* (Fab.) in relation to some phytochemicals of selected okra genotypes 361
Germarium
Ovarian polymorphism in relation to reproductive diversity and associated histological and histochemical attributes in some sporophagous tubuliferan thysanoptera 1
Gesonula punctifrons
Nutritional influence on the growth and reproduction in two species of acridids (Orthoptera: Insecta) 229
GLH biosystematics
Biosystematics of rice brown planthopper and rice green leafhoppers 551
Glucosinolates
Effect of cruciferous glucosinolates on probing pattern and feed uptake by mustard aphid. *Lipaphis erysimi* (Kaltenbach) 695
Glycogen
Glycogen level and glycogen phosphorylase activity in the eggs of silkworm *Bombyx mori* L. 49

Glycogen phosphorylase
Glycogen level and glycogen phosphorylase activity in the eggs of silkworm *Bombyx mori* L. 49

Gonad
In vitro studies on the involvement of brain and gonad in the functional differentiation of prostate gland in *Cryptozona belangeri* (Deshayes) (Mollusca: Gastropoda) 369
Grouse locusts
Significance of haemolymph protein patterns in biosystematic studies of some grouse locusts (Tetrigidae: Orthoptera) 527
Growth comparison
Aspects of culture: *Acanthamoeba astronyxis* (Ray and Hayes 1954) from Bay of Bengal coasts, India 63
Growth index
Development and survival of *Mythimna separata* (Wlk.) on some host plants during winter at Hisar 71
Growth rate
Nutritional influence on the growth and reproduction in two species of acridids (Orthoptera: Insecta) 229
Observations on feeding propensities, growth rate and fecundity in mayflies (Insecta: Ephemeroptera) 305

Haematology
Haematological effects of sublethal concentration of formalin on *Sarotherodon mossambicus* (Peters) 721
Haematophagous arthropods
Nutrition and reproduction in haematophagous arthropods 253
Haematophagy
Host dependency among haematophagous insects: A case study on flea-host association 349

Haemolymph proteins
Significance of haemolymph protein patterns in biosystematic studies of some grouse locusts (Tetrigidae: Orthoptera) 527
Harpactorinae
Biological, behavioural and morphological tools in the biosystematics of Reduviidae (Insecta-Heteroptera-Reduviidae) 499
Hatching rhythm
Experimental studies on the hatching rhythm and larval release in Palaemonid and Atyid prawns 647
Heavy metals
Limnology of river Cooum with special reference to sewage and heavy metal pollution 141
Hemocytes
Stress induced alterations in the hemocyte population of *Periplaneta americana* (L.) 689
Heptageniidae
Biosystematic studies of south Indian Leptophlebiidae and Heptageniidae in relation to egg ultrastructure and phylogenetic interpretations 637
Histopathology of nervous system
Effect of sublethal doses of dichlorvos and carbaryl on the nervous system of *Pericallia ricini* Fabr. (Lepidoptera: Arctidae) 129
Host association
Biosystematics of gall aphids (Aphididae, Homoptera) of western Himalaya, India 561

Host plant
Development and survival of *Mythimna separata* (Wlk.) on some host plants during winter at Hisar 71
Host-plant specificity
Newer trends in the biosystematics of Membracidae 517
Host preferences
Host preferences of some acridids (Insecta: Orthoptera) in relation to some biochemical parameters 15
Host selections
Biochemical correlates in *Rhipiphorothrips cruentatus—Terminalia catappa* interactions with special reference to leaf infestation patterns 117
Host visitation
Nutrition and reproduction in haematophagous arthropods 253
Hybridization
Chromosomal basis of raciation in *Drosophila*: A study with *Drosophila nasuta* and *Drosophila albomicana* 451

Importance value
Distribution and population dynamics of soil nematodes in a tropical forest ecosystem from Sambalpur, India 395
Incidence
Influence of biochemical parameters of different hosts on the biology of *Earias vittella* (Fab.) (Noctuidae: Lepidoptera) 329
Indian musk shrew
Light and electron microscopic observations on lipid droplets of the sebaceous flank gland of the shrew, *Suncus murinus viridescens* (Blyth) 33
Insect biosystematics
Recent trends in the biosystematics of Entognathous Apterygota with special reference to Collembola 619
Insect-plant interaction
Some observations on the nutrition-reproduction correlation in grouse locusts (Orthoptera: Tetrigidae) 323
Insects
Nutrient modulation of hormone production: Dietary essential fatty acids, tissue prostaglandins and their probable role in insect reproduction 181
Nutrition and reproduction in haematophagous arthropods 253
Internal anatomy
Some aspects of biosystematics of Bruchidae (Coleoptera) 509
Intrinsic rate of natural increase
Host preferences in some pentatomids and related impact on the fecundity of their parasitoids 281
In vitro studies
In vitro studies on the involvement of brain and gonad in the functional differentiation of prostate gland in *Cryptozona belangeri* (Deshayes) (Mollusca: Gastropoda) 369
Isoptera
Wing microsculpturing in two Arabian species of termite genus *Amitermes* (Termitidae, Amitermitinae) 715
Isozyme
Recent advances in biosystematics of *Trichogramma* and *Trichogrammatoidea* (Hymenoptera, Trichogrammatidae) 469
Isozymes
Multifaceted approach to evaluate the relationship among closely related forms of *Drosophila* 439
Karyology
Importance of Karyology in aphid taxonomy 461
Karyotypes
Multifaceted approach to evaluate the relationship among closely related forms of *Drosophila* 439
Katelysia
Quantitative analysis of carbohydrases in the crystalline style of some intertidal bivalve molluscs 41
Feeding and extracellular digestive rhythms in some intertidal bivalve molluscs 667

Larval
Nutritional modulation of reproduction in two phytophagous insect pests 153
Leaf age
Influence of leaf age on feeding and reproduction in *Raphidopalpa atripennis* F. (Coleoptera: Chrysomelidae) 207
Lepidoptera
Biosystematics in lepidoptera and its importance in forest entomological research 613
Leptophlebiidae
Biosystematic studies of south Indian Leptophlebiidae and Heptageniidae in relation to egg ultrastructure and phylogenetic interpretations 637
Life and fertility tables
Life and fertility tables of *Achaea janata* Linnaeus on castor 383
Life cycle
Biosystematics of gall aphids (Aphididae, Homoptera) of western Himalaya, India 561
Life-table analysis
Nutritional value of malvaceous seeds and related life-table analysis in terms of feeding and reproductive indices in the dusky cotton bug, *Oxycarenus laetus* Kirby (Hemiptera: Lygaeidae) 195

Life table studies
Host preferences in some pentatomids and related impact on the fecundity of their parasitoids 281
Light and electron microscopic investigations
Light and electron microscopic observations on lipid droplets of the sebaceous flank gland of the shrew, *Suncus murinus viridescens* (Blyth) 33
Light/darkness cycles
Experimental studies on the hatching rhythm and larval release in Palaemonid and Atyid prawns 647
Lipaphis erysimi (Kaltenbach)
Effect of cruciferous glucosinolates on probing pattern and feed uptake by mustard aphid, *Lipaphis erysimi* (Kaltenbach) 695
Lipid droplets
Light and electron microscopic observations on lipid droplets of the sebaceous flank gland of the shrew, *Suncus murinus viridescens* (Blyth) 33
Lipids
Qualitative and quantitative changes in lipids along the length of female reproductive system of the poultry nematode *Ascaridia galli* (Schrank 1788) 683
Litter size
Population structure and breeding season in *Rattus rattus wroughtoni* Hinton 657
Longevity
Influence of leaf age on feeding and reproduction in *Raphidopalpa atripennis* F. (Coleoptera: Chrysomelidae) 207
Impact of predation and food utilization on reproduction of *Diplonychus indicus* and *Ranatra filiformis* 293
Lotic limnology
Limnology of river Cooum with special reference to sewage and heavy metal pollution 141

Magnesium
Cadmium induced vertebral deformities in an estuarine fish, *Ambassis commersoni* Cuvier 389
Mayflies
Observations on feeding propensities, growth rate and fecundity in mayflies (Insecta: Ephemeroptera) 305
Membracidae
Newer trends in the biosystematics of Membracidae 517
Meretrix
Quantitative analysis of carbohydrases in the crystalline style of some intertidal bivalve molluscs 41
Feeding and extracellular digestive rhythms in some intertidal bivalve molluscs 667
Micromorphology
Micromorphology and cytochemistry of the branchial glands of the freshwater mullets, *Rhinomugil corsula* (Ham.) and *Sicamugil cascasia* (Ham.) 417
Morphological tools
Biological, behavioural and morphological tools in the biosystematics of Reduviidae (Insecta-Heteroptera-Reduviidae) 499
Mosquitoes
Feeding and reproduction in vector mosquitoes 275
Mucous glands
Micromorphology and cytochemistry of the branchial glands of the freshwater mullets, *Rhinomugil corsula* (Ham.) and *Sicamugil cascasia* (Ham.) 417
Mullets
Micromorphology and cytochemistry of the branchial glands of the freshwater mullets, *Rhinomugil corsula* (Ham.) and *Sicamugil cascasia* (Ham.) 417
Murids
Evaluation of brodifacoum against house murids of Garhwal Himalaya (India) 679
Mus musculus
Evaluation of brodifacoum against house murids of Garhwal Himalaya (India) 679
Mylabris pustulata
Effect of food quality on fecundity of *Mylabris pustulata* (Coleoptera: Meloidae) 217
Mythimna separata
Development and survival of *Mythimna separata* (Wlk.) on some host plants during winter at Hisar 71
Natural enemies
Influence of nutrition on the reproductive biology of sugarcane pests and their natural enemies 245
Nature of resistance
Nature of resistance in selected rice varieties and population fluctuation of green leafhoppers, *Nephotettix virescens* (Distant) and *Nephotettix nigropictus* (Stål) 425
Neem
Influence of azadirachtin on insect nutrition and reproduction 341
Nematode
Qualitative and quantitative changes in lipids along the length of female reproductive system of the poultry nematode *Ascaridia galli* (Schrank 1788) 683
Nephotettix nigropictus
Nature of resistance in selected rice varieties and population fluctuation of green leafhoppers, *Nephotettix virescens* (Distant) and *Nephotettix nigropictus* (Stål) 425
Nephotettix virescens
Nature of resistance in selected rice varieties and population fluctuation of green leafhoppers,

Nephotettix virescens (Distant) and *Nephotettix nigropictus* (Stål) 425

Nest microhabitat
Host dependency among haematophagous insects: A case study on flea-host association 349

Neuroendocrines
Assessment of neuroendocrine mechanisms of feeding and reproduction in phytophagous insects 185

Niche selection
Correlation of nutritional changes with the reproductive potential of *Aphis gossypii* Glover on egg plant 239

Nitrogen
Distribution and population dynamics of soil nematodes in a tropical forest ecosystem from Sambalpur, India 395

Nitrogen quotient
Energy utilization in freshwater mullet, *Rhinomugil corsula* (Hamilton) under exercise 705

Nutrient contents
Correlation of nutritional changes with the reproductive potential of *Aphis gossypii* Glover on egg plant 239

Nutrient metabolism
Nutrition and reproduction in haematophagous arthropods 253

Nutritional value of seeds
Nutritional value of malvaceous seeds and related life-table analysis in terms of feeding and reproductive indices in the dusky cotton bug, *Oxycarenus laetus* Kirby (Hemiptera: Lygaeidae) 195

Nutrition
Influence of nutrition on the reproductive biology of sugarcane pests and their natural enemies 245
Nutrition and reproduction in haematophagous arthropods 253
Some observations on the nutrition-reproduction correlation in grouse locusts (Orthoptera: Tetrigidae) 323
Influence of azadirachtin on insect nutrition and reproduction 341
Effect of okra fruit blocks, seeds and pericarp on post-embryonic development of *Earias vittella* (Fab.) in relation to some phytochemicals of selected okra genotypes 361

Nymphal duration
Nutritional influence on the growth and reproduction in two species of acridids (Orthoptera: Insecta) 229

Nyphasia apicalis
Biology of *Nyphasia apicalis* Gahan (Coleoptera: Cerambycidae) with particular emphasis on emergence and imaginal life 403

Okra
Influence of biochemical parameters of different hosts on the biology of *Earias vittella* (Fab.) (Noctuidae: Lepidoptera) 329
Effect of Okra fruit blocks, seeds and pericarp on post-embryonic development of *Earias vittella* (Fab.) in relation to some phytochemicals of selected okra genotypes 361

Oogenesis
Qualitative and quantitative changes in lipids along the length of female reproductive system of the poultry nematode *Ascaridia galli* (Schrank 1788) 683

Opercular diversities
Biosystematics of Tingidae on the basis of the biology and micromorphology of their eggs 587

Organic carbon
Distribution and population dynamics of soil nematodes in a tropical forest ecosystem from Sambalpur, India 395

Orthoptera
Significance of haemolymph protein patterns in biosystematic studies of some grouse locusts (Tetrigidae: Orthoptera) 527

Ovary
Qualitative and quantitative changes in lipids along the length of female reproductive system of the poultry nematode *Ascaridia galli* (Schrank 1788) 683

Overwintering
Biology of *Nyphasia apicalis* Gahan (Coleoptera: Cerambycidae) with particular emphasis on emergence and imaginal life 403

Oviduct
Qualitative and quantitative changes in lipids along the length of female reproductive system of the poultry nematode *Ascaridia galli* (Schrank 1788) 683

Oviparity
Ovarian polymorphism in relation to reproductive diversity and associated histological and histochemical attributes in some sporophagous tubuliferan thysanoptera 1

Oviposition
Impact of predation and food utilization on reproduction of *Diplonychus indicus* and *Ranatra filiformis* 293

Oviposition strategies
Biosystematics of Tingidae on the basis of the biology and micromorphology of their eggs 587

Ovoviviparity
Ovarian polymorphism in relation to reproductive diversity and associated histological and histochemical attributes in some sporophagous tubuliferan thysanoptera 1

Oxycarenus laetus
Nutritional value of malvaceous seeds and related life-table analysis in terms of feeding and reproductive indices in the dusky cotton bug, *Oxycarenus laetus* (Hemiptera: Lygaeidae) 195

Oxygen consumption
Energy utilization in freshwater mullet, *Rhinomugil corsula* (Hamilton) under exercise 705

Parasites
Biosystematics of gall aphids (Aphididae, Homoptera) of western Himalaya, India 561

Parasitism
Biosystematic studies on Agromyzidae from India 573

Parasitoids
Host preferences in some pentatomids and related impact on the fecundity of their parasitoids 281

Pentatomids
Host preferences in some pentatomids and related impact on the fecundity of their parasitoids 281

Pericallia ricini
Effect of sublethal doses of dichlorvos and carbaryl on the nervous system of *Pericallia ricini* Fabr. (Lepidoptera: Arctidae) 129

Pericarp
Effect of okra fruit blocks, seeds and pericarp on post-embryonic development of *Earias vittella* (Fab.) in relation to some phytochemicals of selected okra genotypes 361

Periplaneta americana
Stress induced alterations in the hemocyte population of *Periplaneta americana* (L.) 689

Phosphorus
Cadmium induced vertebral deformities in an estuarine fish, *Ambassis commersoni* Cuvier 389

Phylogeny
Biosystematic studies of south Indian Leptophlebiidae and Heptageniidae in relation to egg ultrastructure and phylogenetic interpretations 637

Phytochemicals
Effect of okra fruit blocks, seeds and pericarp on post-embryonic development of *Earias vittella* (Fab.) in relation to some phytochemicals of selected okra genotypes 361

Pila globosa
Effect of starvation on food utilization in the freshwater snail *Pila globosa* (Swainson) 135

Polyunsaturated fatty acids
Nutrient modulation of hormone production: Dietary essential fatty acids, tissue prostaglandins and their probable role in insect reproduction 181

Population fluctuation
Nature of resistance in selected rice varieties and population fluctuation of green leafhoppers, *Nephotettix virescens* (Distant) and *Nephotettix nigropictus* (Stål) 425

Post-embryonic
Effect of okra fruit blocks, seeds and pericarp on post-embryonic development of *Earias vittella* (Fab.) in relation to some phytochemicals of selected okra genotypes 361

Pre and post vitellogenic zones
Ovarian polymorphism in relation to reproductive diversity and associated histological and histochemical attributes in some sporophagous tubuliferan thysanoptera 1

Pre-bating
Evaluation of brodifacoum against murids of Garhwal Himalaya (India) 679

Predators
Biosystematics of gall aphids (Aphididae, Homoptera) of western Himalaya, India 561

Preferred and non-preferred host
Some observations on the nutrition—reproduction correlation in grouse locusts (Orthoptera: Tetrigidae) 323

Pre-natal mortality
Population structure and breeding season in *Rattus rattus wroughtoni* Hinton 657

Probing pattern
Effect of cruciferous glucosinolates on probing pattern and feed uptake by mustard aphid, *Lipaphis erysimi* (Kaltenbach) 695

Prostagladins
Nutrient modulation of hormone production: Dietary essential fatty acids, tissue prostaglandins and their probable role in insect reproduction 181

Prostate
In vitro studies on the involvement of brain and gonad in the functional differentiation of prostate gland in *Cryptozona belangeri* (Deshayes) (Mollusca: Gastropoda) 369

Protura
Recent trends in the biosystematics of Entognathous Apterygota with special reference to Collembola 619

Quality of food
Food utilization and surfacing activity of *Channa striatus* fry in relation to quality of food 77

Quantitative food utilization
Nutritional influence on the growth and reproduction in two species of acridids (Orthoptera: Insecta) 229

Raphidopalpa atripennis
Influence of leaf age on feeding and reproduc-

tion in *Raphidopalpa atripennis* F. (Coleoptera: Chrysomelidae) 207
Rattus rattus
Evaluation of brodifacoum against house murids of Garhwal Himalaya (India) 679
Rattus rattus wroughtoni
Population structure and breeding season in *Rattus rattus wroughtoni* Hinton 657
Reduviidae
Feeding and behavioural parameters and egg ultrastructure in the biosystematics of Reduviidae (Insecta-Heteroptera) 485
Biological, behavioural and morphological tools in the biosystematics of Reduviidae (Insecta-Heteroptera-Reduviidae) 499
Reproduction
Nutrient modulation of hormone production: Dietary essential fatty acids, tissue prostaglandins and their probable role in insect reproduction 181
Assessment of neuroendocrine mechanisms of feeding and reproduction in phytophagous insects 185
Nutrition and reproduction in haematophagous arthropods 253
Influence of azadirachtin on insect nutrition and reproduction 341
Reproductive biology
Some observations on the nutrition—reproduction correlation in grouse locusts (Orthoptera: Tetrigidae) 323
Influence of biochemical parameters of different hosts on the biology of *Eárias vittella* (Fab.) (Noctuidae: Lepidoptera) 329
Reproductive potential
Nutritional modulation of reproduction in two phytophagous insect pests 153
Correlation of nutritional changes with the reproductive potential of *Aphis gossypii* Glover on egg plant 239
Impact of chemicals on feeding and reproduction in insects 311
Resource utilization
Multifaceted approach to evaluate the relationship among closely related forms of *Drosophila* 439
Respiratory quotient
Energy utilization in freshwater mullet, *Rhinomugil corsula* (Hamilton) under exercise 705
Rhinomugil corsula
Energy utilization in freshwater mullet, *Rhinomugil corsula* (Hamilton) under exercise 705
Rhipiphorothrips cruentatus
Biochemical correlates in *Rhipiphorothrips cruentatus*—*Terminalia catappa* interactions with special reference to leaf infestation patterns 117
Roach
Stress induced alterations in the hemocyte population of *Periplaneta americana* (L.) 689
Sarotherodon mossambicus
A shift in metabolic pathway of *Sarotherodon mossambicus* (Peters) exposed to thiodon (endosulfan) 55
Haematological effects of sublethal concentration of formalin on *Sarotherodon mossambicus* (Peters) 721
Satellite DNA
Multifaceted approach to evaluate the relationship among closely related forms of *Drosophila* 439
Sebaceous alveoli
Light and electron microscopic observations on lipid droplets of the sebaceous flank gland of the shrew, *Suncus murinus viridescens* (Blyth) 33
Seed-infesting thrips
Ecobehavioural and biological studies on two species of seed infesting thrips (Thysanoptera: Insecta) 23
Seed species effect
Effect of temperature and host seed species on the fecundity of *Callosobruchus maculatus* 221
Sewage pollution
Limnology of river Cooum with special reference to sewage and heavy metal pollution 141
Sex ratio
Population structure and breeding season in *Rattus rattus wroughtoni* Hinton 657
Sibling species
Recent advances in biosystematics of *Trichogramma* and *Trichogrammatoidea* (Hymenoptera, Trichogrammatidae) 469
Biosystematic studies on *Aphytis* in India-A promising area of research 479
Silk length
Terminal velocity of the first instar *Ectropis excursaria* (Guence) (Lepidoptera: Geometridae) 673
Silkworm
Effects of feeding regime on energy allocation to reproduction in the silkworm *Bombyx mori* 333
Sinigrin
Effect of cruciferous glucosinolates on probing pattern and feed uptake by mustard aphid, *Lipaphis erysimi* (Kaltenbach) 695
Site selections
Biochemical correlates in *Rhipiphorothrips cruentatus*—*Terminalia catappa* interactions with special reference to leaf infestation patterns 117
Soil nematode
Distribution and population dynamics of soil nematodes in a tropical forest ecosystem from Sambalpur, India 395

Starvation
Effect of starvation on food utilization in the freshwater snail *Pila globosa* (Swainson) 135
Stress induced alterations in the hemocyte population of *Periplaneta americana* (L.) 689
Sublethal doses of insecticides
Effect of sublethal doses of dichlorvos and carbaryl on the nervous system of *Pericallia ricini* Fabr. (Lepidoptera: Arctidae) 129
Succinic dehydrogenase
A shift in metabolic pathway of *Sarotherodon mossambicus* (Peters) exposed to thiodon (endosulfan) 55
Sugarcane pests
Influence of nutrition on the reproductive biology of sugarcane pests and their natural enemies 245
Suncus murinus viridescens
Light and electron microscopic observations on lipid droplets of the sebaceous flank gland of the shrew, *Suncus murinus viridescens* (Blyth) 33
Surfacing activity
Food utilization and surfacing activity of *Channa striatus* fry in relation to quality of food 77
Survivability
Impact of differential feeding on the reproduction of tiger beetle *Cicindela cancellata* DeJean (Cicindelidae: Coleoptera) 317

Temperature
Effect of temperature and host seed species on the fecundity of *Callosobruchus maculatus* (F.) 221
Terminalia catappa
Biochemical correlates in *Rhipiphorothrips cruentatus—Terminalia catappa* interactions with special reference to leaf infestation patterns 117
Terminal velocity
Terminal velocity of the first instar *Ectropis excursaria* (Guenee) (Lepidoptera: Geometridae) 673
Termites
Wing microsculpturing in two Arabian species of termite genus *Amitermes* (Termitidae, Amitermitinae) 715
Tetrigids (grouse locusts)
Some observations on the nutrition-reproduction correlation in grouse locusts (Orthoptera: Tetrigidae) 323
Thilytoky
Recent advances in biosystematics of *Trichogramma* and *Trichogrammatoidea* (Hymenoptera, Trichogrammatidae) 469
Thiodon
A shift in metabolic pathway of *Sarotherodon mossambicus* (Peters) exposed to thiodon (endosulfan) 55
Tidal rhythm
Feeding and extracellular digestive rhythms in some intertidal bivalve molluscs 667
Tingidae
Biosystematics of Tingidae on the basis of the biology and micromorphology of their eggs 587
Total and differential counts
Stress induced alterations in the hemocyte population of *Periplaneta americana* (L.) 689
Tribolium castaneum
Nutritional modulation of reproduction in two phytophagous insect pests 153
Tritrophic interactions
Host preferences in some pentatomids and related impact on the fecundity of their parasitoids 281

Uterus
Qualitative and quantitative changes in lipids along the length of female reproductive system of the poultry nematode *Ascaridia galli* (Schrank 1788) 689
Vertebral deformities
Cadmium induced vertebral deformities in an estuarine fish, *Ambassis commersoni* Cuvier 389
Visceral ganglionic complex
In vitro studies on the involvement of brain and gonad in the functional differentiation of prostate gland in *Cryptozona belangeri* (Deshayes) (Mollusca: Gastropoda) 369
Vitellogenesis
Assessment of neuroendocrine mechanisms of feeding and reproduction in phytophagous insects 185
Vitellogenic zone
Ovarian polymorphism in relation to reproductive diversity and associated histological and histochemical attributes in some sporophagous tubuliferan thysanoptera 1
Viviparity
Ovarian polymorphism in relation to reproductive diversity and associated histological and histochemical attributes in some sporophagous tubuliferan thysanoptera 1

Western Himalaya
Biosystematics of gall aphids (Aphididae, Homoptera) of western Himalaya, India 561
Wind dispersal
Terminal velocity of the first instar *Ectropis excursaria* (Guenee) (Lepidoptera: Geometridae) 673
Wing microsculpturing
Wing microsculpturing in two Arabian species of termite genus *Amitermes* (Termitidae, Amitermitinae) 715

Zoocecidea
On some plant galls from the Fiji Islands 81
